## SUMMARY

Full Stack Web Developer with experience in the Financial Services industry. Possess the ability to effectively work with a team and individually in order to create user-friendly web applications while utilizing critical thinking skills.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, Javascript, jQuery, MySQL, MongoDB, React, Node.js, Express

## PROJECTS

**Just Eat It** | <https://github.com/monikanikolova/Just-Eat-It> | <https://monikanikolova.github.io/Just-Eat-It/>

- This is an app that allows users to search for recipes. The user will be able to input either the name of the dish or the main ingredient in the dish in order to find recipes.
- My primary responsibility was to make sure the app looked visually appealing to the user. Also assisted with the API calls to the Zomato API.
- **Languages Used:** HTML, CSS, Bootstrap, jQuery

**Freelance-A-Lot** | [https://github.com/urfavoriteauthor/Second\\_project](https://github.com/urfavoriteauthor/Second_project) | <https://cryptic-ocean-36494.herokuapp.com/>

- Freelance-A-Lot will allow employers to post work online for freelancers. Freelancers will then be able to search for work and apply contact the employer in order to obtain the work.
- My primary responsibility was to make sure the SQL database captured and stored user input. Also was responsible for making sure the server successfully pulled data to display to the user.
- **Languages Used:** Javascript, MySQL, Express, Node
